

Monday, 7 of March, 2016

From February, 29th to March, 7th we received Dr. G. Plavec at Center of Molecular Immunology (CIM), Havana.

During these days Dr. Plavec was invited to visit CIM's production facilities for vaccines and monoclonal antibodies and our Quality Control laboratories.

In addition the Dr. attended a scientific meeting with Dr. Camilo Rodriguez, General Manager for CimavaxEGF Clinical Trials and Dra. Maria del Carmen Barroso, Consultant Professor of Oncology for the Clinical Direction of CIM.

During this meeting the doctors exchanged their experiences related to the specific use of CimavaxEGF, Vaxira and Nimotuzumab, they performed the discussion of several specific cases and exchange CIM's experiences about conducting Clinical Trials in Cuba and abroad.

Taking into account the experience of Dr. Goran Plavec in the treatment of Lung diseases, his knowledge about the use of CimavaxEGF and his continue scientific experiences exchanges with the Cuban specialists, we suggest taking Dr. Plavec into account as coordinator and/or scientific supervisor in the use of CimavaxEGF.

Sincerely.
