TO WHOM IT MAY CONCERN,

We Centre of Molecular Immunology (CIM), declare that in past few years doctor Goran Plavec, professor in pulmonology in MMA Belgrade, visited CIM several time.

During those visits, he has attended scientific and clinical meetings with the most prestigious and experience Cuban specialists as:

- Dr Camilo Rodriguez, General Manager of CimavaxEGF Project at CIM,
- Dra Maria del Carmen Barroso, Consultant Professor of Oncology for the Clinical Direction of CIM and KOL of Oncology in Latin-American and Caribbean region;
- Dr. Giselle Saurez, Medical advisor, Medicine and Pharmacology professor,
- Dr Soraida Acosta Brooks, Medical Oncology, Internal Medicine and Clinical Propaedeutic Professor, Head coordinator of Oncology Clinical Trials, Medical University, Santiago de Cuba;

Among others.

Doctors have exchanged their experiences related to the specific use of CimavaxEGF, Vaxira and Nimotuzumab, maintaining detailed discussion about several specific cases in clinical practice and exchanging CUMs experiences about conducting Clinical Trials in Cuba and elsewhere.

Talking into account the experience of Dr. Goran Plavec in the treatment of Lung Cancer, his knowledge about the use of CimavaxEGF and his continue scientific experiences exchange with Cuban specialist we suggest taking Dr Plavec into account as confident physician in curing consecutive patients.

Authorized person: MSc. Niuvis Perez.
Business and Commerce Regional Manager.
